

# Who is Steering Your Ship?

The history of ship navigation is intertwined with the invention of the **RUDDER**, a crucial component that enables ships to steer and navigate through any type of water.

A **RUDDER** is designed to control the ship's direction, ensure the safe passage through narrow channels, avoid obstacles, and respond to emergency situations promptly.

The **RUDDER** is an essential aspect of ship design and it will always play a crucial part in facilitating safe and efficient voyages across the vast oceans.

**The question is:**

**“Who Is the **RUDDER** in Your Life?”**

Strech Suba

Reminder: Prayer Requests can be submitted via the "chat" feature on Zoom during the service.
